

PROBLEM STATEMENT

- The University admission is really prominent for a student and it is really hassle for them to wander all the college with their mark sheets and ask for eligibility for the particular college, so the algorithm that we created here on the web application make sure that the student gets to the respective college he chooses based on their marks, the actual eligibility is foreseen here through this predictor.
- University Admission Predictor System is a web based application system in which students can register their marks along with their personal information. This helps to predict their admissions in Universities.
- Administrator can add the university details and the batch details. Using this Application, the entrance seat allotment becomes easier and efficient. The main advantage of the project is the computerization of the entrance seat allotment process. Administrator has the power for the allotment.
- The Admin can add the allotted seats into a file and the details are saved into the system. The total time for the entrance allotment becomes lower and the allotment process becomes faster.
- It helps students to make right decisions for choosing their University. In which students can register with their personal as well as marks details to prediction the admission in colleges and the administrator can allot the seats for the students.
- Administrator can add the college details and the batch details. Using this Application, the entrance seat allotment became easier and can be implemented using system.

QUESTION	DESCRIPTION
What does the problem affect?	For anyone pursuing their undergraduate studies, it would be difficult for them to find out what college they may join, based on their HSC Scores and JEE scores. People may apply to many universities that look for candidates with a higher score set, instead of applying to universities at which they have a chance of getting into. This would be detrimental to their future.
What are the boundaries of the problem?	Unnecessary hassle for the college prediction, defining the eligibility, certainty of the eligibility.
What is the issue?	It is very important that a candidate should apply to colleges that he/she has a good chance of getting into, instead of applying to colleges that they may never get into.
When does the issue occur?	Once after the completion of the school higher it would be difficult for them to find out what college they may join, based on their HSC Scores and JEE scores.
Where is the issue occurring?	After the registration the students

	might go through a tremendous confusion.
Why is it important that we fix the problem?	Instead of wandering the Universities with the certificates and for the benefits of the students our software is widely used.
